# QALANDAR QALANDAROV

## Junior Front-End Developer

Tashkent, Uzbekistan | GitHub: [github.com/kalandardev](https://github.com/kalandardev)

---

### PROFILE

Entry-level front-end developer focused on responsive website sections and clean, usable interfaces. Familiar with HTML, CSS and JavaScript fundamentals through personal learning projects. Seeking small freelance assignments involving page sections, styling updates and simple interactive components.

### TECHNICAL SKILLS

**Frontend:** HTML5, CSS3, responsive layouts, basic accessibility.

**Programming:** JavaScript fundamentals, DOM interactions, Python basics.

**Tools:** VS Code, GitHub, local website testing.

### SELECTED PROJECTS

#### Personal Developer Portfolio

Personal learning project | 2026 | HTML, CSS, JavaScript

- Worked on a responsive multilingual portfolio with a dark-and-gold interface, mobile navigation and project cards.
- Worked with JavaScript interactions, GitHub API project listings and a Formspree contact form.

#### WINUAL STORE - Storefront Interface Prototype

Personal learning project | HTML, CSS, JavaScript

- Explored product-card layouts, category sections and shopping-cart interactions in a storefront prototype.
- Practiced responsive styling and consistent presentation across desktop and mobile layouts.

### FREELANCE FOCUS

Hero sections, navigation menus, footers, pricing and product cards; small HTML/CSS styling updates and simple JavaScript interactions.

### EDUCATION

#### Berlin School of Business and Innovation (BSBI)

BSc (Hons) Computer Science and Digitisation  
with International Foundation

October 2026 intake | Foundation stage

### LANGUAGES

Uzbek (native) | English | Russian
